

# WESTERN LIBERAL.

LORDSBURG, JUNE 23, 1905.

Harvey Wilcox, of El Paso, is visiting with Jody Leahy, and the pair are having a great time.

Mrs. W. D. Griffith left Saturday for her old home in Minneapolis, to visit her relatives for a few weeks.

Mrs. E. E. Kyes left the first of the week for Long Beach, California, where she will spend the summer.

Mr. and Mrs. E. W. Clapp entertained a number of friends Saturday evening, in honor of the third anniversary of their wedding.

R. W. Vandever, who left for El Paso some weeks ago, was in the city Friday after his family, which he will move to the city of the Pass, where he has a good job.

Professor F. A. Jones was in the city again the first of the week to take a look at the Clara Sutton, in the interest of the North American company.

Ira Cooper, who has been working in the Southern Pacific yard here for some years, has taken a position on the Arizona & New Mexico road, and moved his family to Clifton. Mr. and Mrs. Cooper will be greatly missed in Lordsburg.

Miss Bessie Muir, who has been in California for a couple of years, was in the city this week, having returned to New Mexico a couple of weeks ago. She thinks the San Joaquin valley, where she has been staying, is the garden spot of the world.

**FOR SALE.**—A few articles of household furniture, including kitchen table with bins and drawers, three burner oil cooking stove with oven, china closet, linoleum, ice cream freezer, iron and kitchen utensils. Above will be sold cheap to save packing. Apply at residence.

R. M. KEDZIE.

Word came down from Clifton last week that Claud Fuller was very sick. He has been driving a team for the Arizona copper company. His mother went up and found he had typhoid pneumonia. He was in the hospital and was receiving the best of care and attention, as do all the employees of this company.

The session laws for 1905, passed by the last legislature, have been printed and distributed. They make a book of nearly four hundred pages. Many of the laws are wise ones. Some could have been better. If the book had only contained a law erecting the county of Pyramid it would have been a more valuable publication.

A Chinese maiden, under the care of a chaperone, arrived in town the first of the week, and will become the bride of Charlie Lee, the Chinese merchant as soon as the necessary marriage license is secured from Silver City. Charles T. Connell, an inspector of immigration, whose duty it is to look out for the Chinese, is expected to arrive in time to give the bride away.

Mrs. James Barber died Wednesday. A child was born to Mrs. Barber some weeks ago, and she never recovered, sinking slowly until relieved by death. Mrs. Barber was a most estimable woman, and had made a large circle of admiring friends in the few years she lived in Lordsburg. She leaves her husband, one daughter, Wilma, about ten years old, and her mother, Mrs. Greenup, to mourn her untimely death.

Yesterday morning the two and half year old son of S. B. Scarborough was seriously hurt. He was found unconscious out in the yard where there was a loose horse. On being examined it was found that he had received a blow in the face which had broken his nose. He recovered consciousness, and is not thought to be seriously injured. He could tell nothing of what had happened to him, but it is supposed the horse kicked him.

Miss Blanche Casey, who was one of the teachers in our school last winter, and Robert Boulware, were married in Silver City last week. The bride is a most charming lady, and was very popular in Lordsburg, as she also is in Silver City. The groom is a prominent business man in Silver City, and wore out several teams last winter, traveling between Silver City and the Lordsburg schoolhouse. The newly wedded couple will make their home in Silver City.

Charlie Snyder, the ten year old son of Mr. and Mrs. P. H. Snyder, was drowned at Gold Hill Tuesday. He went swimming in a dirt tank, in portions of which the water was six or eight feet deep. His mother was on the bank of the tank. Her attention was drawn from the boy for a moment, and on looking back she found him struggling in the water. She went to his rescue and got him out, but he was so far gone that he could not be brought to again. It is a wonder that Mrs. Snyder herself was not drowned, as she could not swim.

**Sprained Ankle, Stiff Neck, Lame Shoulder.**—These are three common ailments for which Chamberlain's Pain Balm is especially valuable. If promptly applied it will save you time, money and suffering when troubled with any of these ailments. For sale by all dealers in medicine.

## MINING MATTERS.

News About the Great Industry of this Section of the World.

A party of Lordsburgers consisting of Mrs. A. E. Owen, W. H. Small, J. T. McCabe and D. H. Kedzie went out to expert the properties of the National gold and silver company at Stein's Pass last Saturday. They took the train to the Pass, and then had to drive out to the mines, which is some six miles from the station by the road, which is a good one. The camp is located in a valley. The company has ten locations in this valley; the principal one, and the one that is being worked, is the old Beck mine, which has been worked at intervals for many years. The company has utilized the old shaft on this property, through which it was exploited. The shaft was put down on an incline, and when Superintendent Guenther took charge of the property it was in bad shape. He has straightened up the shaft, and enclosed the portion used for hoisting the ore, so that it is safe, although not as large as he would wish. The sinking of a large working shaft has been postponed to await the completion of more important work. There is another shaft on the property some three hundred feet from the one in use, which is down an hundred feet in a fine body of ore, which will probably be utilized when it comes to making a working shaft. The shaft is about 300 feet, with workings at various levels, all of which show good ore. At the 400 foot level there is a shoot or chimney of ore that has been cut for fifty feet, and the end not yet reached. In one place it is known to extend fifty feet above the level. How far down it goes there is no telling. This ore is about four feet wide, of which some two feet is a milling ore, and is being put through the mill. The other two feet is a high grade ore, all running more than an hundred ounces of silver, and is sacked in the mine for shipment. The ore that is taken out is carefully hand sorted, much high grade ore taken out, and the remainder milled. The mill building was not built with the discretion that might have been used, and the consequence is there is waste space in the building, and useless machinery. As originally planned, the mill, an Elpas, and the concentrating tables were on the same floor. This necessitated the building of an elevator to take the product of the mill above the tables. Superintendent Guenther put the tables in the lower floor, and this made junk of the elevator, and much of the building above this level. As originally built there were three tables in the mill, but it was found that only one of them, the Willey, worked successfully on this ore, and so the other two were junked along with the elevator. Another Willey table has been put in and the lumber is on the ground to build an addition to the mill which will hold two more tables. At present the tables are pushed too much to take care of the product of the mill, which is not pushed to its full capacity. Owing to this pushing as close a saving as is wanted is not made, yet the savings in values runs up to eighty-five per cent. The water question has been satisfactorily solved. The ten hundred foot well supplies plenty of water. Tanks are arranged on the hill above all the buildings, which hold 35,000 gallons of water. The pump is run only every second day, which furnishes an abundant supply of water with what is a second time. The tailings are impounded, which gives them a chance to settle, and the water becomes clear, and is pumped back into the mill and re-used. It is cheaper to pump the water from the tailing pond than from the well, as it does not have to be lifted so far. Pipes are laid all over the works, and hydrants are frequent, which gives a good water supply in case of fire. There is an assay office, a comfortable bunk house and dining room, presided over by Jim Lee, a Chinaman who is as loco as he was during his many years residence in Lordsburg. Superintendent Guenther imported from Utah, where he mined for many years and was well acquainted, a competent mill man and mining boss, who are doing good work. With the ton or so of concentrates made every day, and the high grade ore that is now being sacked the National company should soon be on easy street. It has plenty of ore ahead to keep its present plant running, and with a larger plant, where larger quantities of ore could be milled at only a slight increase of cost, it has enough ore in sight to keep it running for years.

Dr. M. C. Sinclair, of Grand Rapids, president of the International Gold company, which has mines at Malone, arrived in the city the first of the week, accompanied by A. W. Hompe, a prominent furniture man of Grand Rapids, and E. S. Sittig, a business man of the same place, and all hands went out to Malone. It is to be hoped that the visit of these gentlemen will result in the resumption of work on the company's properties. The company has done a great deal of work at Malone, and got its mill almost ready to start, but has not yet worked any ore. It undoubtedly has a good proposition if it would only push its work a little further.

T. A. Lister returned from his Pennsylvania trip the first of the week, and was glad to get back into the delightful climate of this region. He reports that the officers of the North American company contemplate adding to their properties and pushing work. While east he met the officers of the Pyramid Peak consolidated copper company, and they feel greatly elated at the prospects of their company.

A. W. Morningstar, president of the Morning Star mining company, left for Shamokin, Pennsylvania, last Friday. Mr. Morningstar has a pleasant story to tell the stockholders of his company, and expects to make arrangements for continued and extended work on its properties in the near future. The properties were recently experted by a mining engineer, who gave a very favorable report.

R. S. Ely, manager of the Deming smelter, was in the city yesterday between trains, returning to Deming after spending a couple of days at the National mines at Stein's Pass. Mr. Ely says his smelter is doing satisfactory work, and has long contracts for ore ahead. Ore is shipped his smelter from Texas, that is hauled past the great El Paso smelter.

S. W. Winn, of the National mines at Stein's Pass, was in the city yesterday. He is shipping a carload of ore and concentrates to the Deming smelter this week.

**WILL IT CURE ME?**  
That's the personal question a woman asks herself when she reads of the cures of womanly diseases by the use of Dr. Pierce's Favorite Prescription.  
Why shouldn't it cure her?  
Is it a complicated case? Thousands of such cases have been cured by "Favorite Prescription." Is it a condition which local doctors have declared incurable? Among the hundreds of thousands of sick women cured by the use of Dr. Pierce's Favorite Prescription there are a great many who were pronounced incurable by local doctors. Wonders have been worked by "Favorite Prescription" in the cure of irregularity, weakening drains, inflammation, sterility and female weakness. It always helps. It almost always cures.  
"I commenced taking your medicine, 'Favorite Prescription,' nearly a year ago for chronic inflammation of womb and can truly say it is the only thing that ever did me any good," writes Mrs. L. C. Wagner, of 125 Edwin Street, Louisville, Kentucky. "I could not walk any distance before using it. After taking six bottles of your 'Favorite Prescription' I find I can walk without difficulty and am greatly benefited in general health. Would advise all suffering women to use Dr. Pierce's medicine."

**Pierce's** These are the Original Little Liver Pills, first put up over 40 years ago, by old Dr. J. C. V. They are a natural vegetable compound of refined and concentrated vegetable extracts. Without disturbance or trouble, constipation, indigestion, bilious attacks, sick and bilious headaches, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. Permanently cured, too, by their mild and natural action, these little pills gently lead the system into natural ways again. Their influence lasts.

T. A. Lister returned from his Pennsylvania trip the first of the week, and was glad to get back into the delightful climate of this region. He reports that the officers of the North American company contemplate adding to their properties and pushing work. While east he met the officers of the Pyramid Peak consolidated copper company, and they feel greatly elated at the prospects of their company.

R. S. Ely, manager of the Deming smelter, was in the city yesterday between trains, returning to Deming after spending a couple of days at the National mines at Stein's Pass. Mr. Ely says his smelter is doing satisfactory work, and has long contracts for ore ahead. Ore is shipped his smelter from Texas, that is hauled past the great El Paso smelter.

S. W. Winn, of the National mines at Stein's Pass, was in the city yesterday. He is shipping a carload of ore and concentrates to the Deming smelter this week.

## Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and poisons the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.  
Mr. D. Kaubie, of Nevada, O., says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me."  
**Kodol Digests What You Eat** and relieves the stomach of all nervous strain and the heart of all pressure. Bottles only \$1.00. Six bottles 24c. The trial size is free. Sold by all druggists.  
Prepared by E. C. DEWITT & CO., CHICAGO.

## The Smart Set A Magazine of Cleverness.

Magazines should have a well-defined purpose. Genuine entertainment, amusement and mental recreation are the motives of THE SMART SET, the MOST SUCCESSFUL OF MAGAZINES.  
Its novels (a complete one in each number) are by the most brilliant authors of both hemispheres. Its short stories are matchless—clean and full of human interest. Its poetry covering the entire field of verse—pathos, love, humor, tenderness—is by the most popular poets, men and women, of the day. Its jokes, witticisms, sketches, etc., are admittedly the most mirth-provoking.  
100 PAGES DELIGHTFUL READING.  
No pages are wasted on cheap illustrations, editorial vaporings or wearying essays and idle discussions. Every page will interest, charm and refresh you.  
Subscribe now—\$2.50 per year. Remit in cheque, P. O. or Express order, or registered letter to THE SMART SET, 452 Fifth Avenue, New York.  
N. B.—Sample copies sent free on application.

## Bluestone, Copperas, Sulphuric Acid

Made from the celebrated CLIFTON Ores. Free from Antimony and Arsenic.

## HIGH ELECTRICAL ENERGY.

Gives more satisfactory results in Reduction Works than any Chemicals in the market.

A long freight haul saved to the consumers in both territories.  
Prices in competition with the Eastern Markets.

## Arizona Copper Co. CLIFTON, ARIZONA.

Absolutely good service.  
Best of roadbed and equipment facilities.  
Quick and Comfortable.  
Finest and Best service to all points north and east.  
Makes good connection with your train from the west.  
And good connections at Kansas City, Chicago and other points for all the large eastern cities.  
Meals served at our handsome Harvey hotels which are under the Management of the noted FRED HARVEY.

## The Santa Fe

Comfortable Day Coaches and Free Chair Cars; Pullman Palace and Tourist Sleepers; The Best Dining Service in the World.
